RELIGION AND SCIENCE

By Timothy S. Klugh

Copyright © 2010 Timothy S. Klugh. All Rights Reserved.

I'm not a Creationist, atheist, agnostic or a Darwin-embracer. The closest title for me is a believer of Intelligent Design: That life began through some intelligent means. To me, it was God. Religion once persecuted science; Now science persecutes religion. When one or the other is dominant, there is repression and abuse of power. When either is dominant, we witness the fall of ethics and morality.
